3) Single Term Format for Courses

4) Appointment of Reporter to Faculty Council
D. McKinnon volunteered and was approved for this position.
5) **Other Business**

Dr. McKinnon commented on the bill that students had been sent regarding lab fees and asked why the billing was done so late. Dean Isaac noted that it had been hoped the fees could be collected at registration but that the Student Records Office had not been able to accommodate this. Dean Bigelow noted that he would try to get the fees collected at the point of registration next year. Dr. McKinnon noted that this would eliminate the cost involved in billing twice. Dean Isaac noted that the faculty had asked for a flat fee for each Science course, but that this had been denied since the government had promised no fee increase. The faculty will ask again for the 83-84 session, to have a flat fee per course levied.

Phil Harris asked if an increase in tuition fees would eliminate the need for lab fees. Dean Bigelow noted that the problem with fee increases is that the money doesn't go directly to the faculty, whereas the money from lab fees does and can be applied directly to the departments.

Meeting adjourned at 4:35.
